B2Buster: an AI-powered GTM platform for B2B sales teams

euristiq + B2Buster

AI solution architecture | AI development service | AI workshop

In 3 months, we delivered a production-ready AI platform that turned the client's manual consulting methodology into a scalable Go-to-Market intelligence solution, with a knowledge base and human-in-the-loop validation.

TECHNOLOGY STACK

Amazon Bedrock | Amazon ECS | Amazon DynamoDB | Amazon S3 | Amazon EventBridge Scheduler | Amazon CloudWatch | Terraform

OUTCOMES

- Delivered production-ready in ~3 months, enabling fast launch
- ~50% faster strategic decision-making for clients
- AI costs cut ~5x, making the platform commercially sustainable
- Full reports in ~2 hours vs. days of manual work
- Human-in-the-loop feedback drives ongoing quality improvement
