An AI GTM Platform for B2B Sales Teams and Leadership

B2Buster

B2Buster's manual market research was reliable but slow and costly to scale. Euristiq built a production-ready AI GTM platform that automates its proprietary methodology, keeps experts in the loop, and generates strategic reports faster.

MVP | Agentic AI | Strategic intelligence | Custom software development | AWS | AI-native development

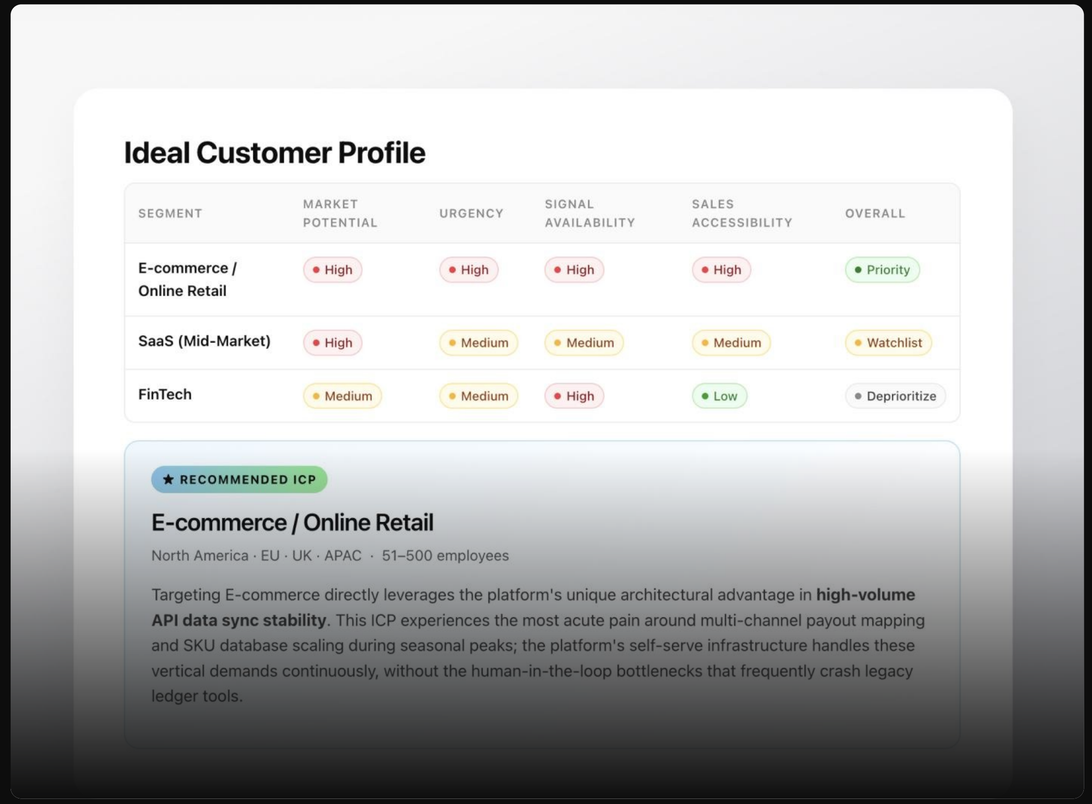

Outcomes

9x faster with AI
Reports generated up to 9x faster than manual analysis.

~2 hours for report
A comprehensive go-to-market report produced in about two hours.

2X faster
~50% reduction in time required for strategic decision-making.

~5x lower AI cost
Significantly lower AI operating costs via optimized inference pipelines.

Industry	Location	AI platform for research vs. manual analysis
IT	Europe	9x faster
