Real Estate Lending Marketplace

FundRe needed visibility into Europe's private commercial real estate debt market, which ran on spreadsheets, email, and word-of-mouth. Euristiq built a cloud-based platform from scratch that matches sponsors, debt advisors, and lenders automatically — delivered in under a year.

Discovery | MVP | Custom software development | Automation of financial processes | AWS | Integration services | Cloud infrastructure & development

Outcomes

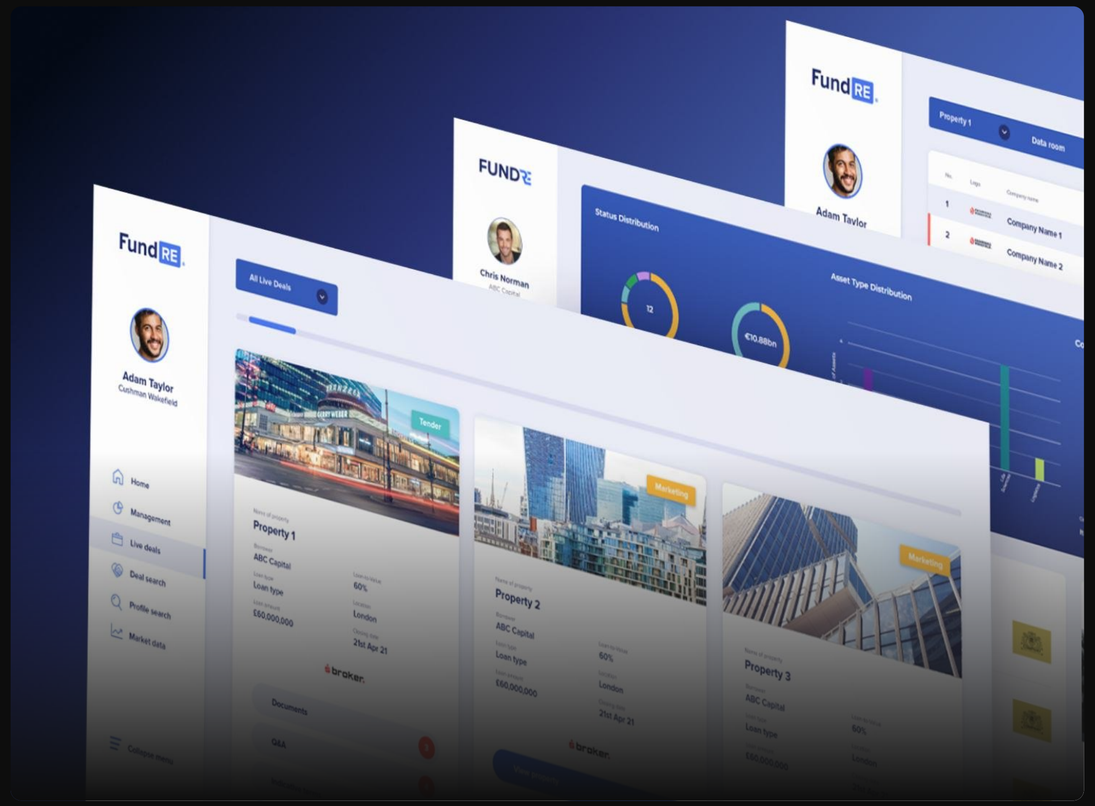

Live in under 1 year
Built end-to-end from scratch, from idea to a fully operating platform.

3 user roles unified
Sponsors, debt advisors, and lenders share one matching workflow.

Automated deal-matching
Matches investors with lenders by lending criteria, with standardized deal records.

New to the European market
No direct analogs existed in the market at the time of launch.
